New Dues Structure to be Voted on at December Meeting

As announced in last month's Bulletin, at the Sept. 29 Board Meeting it was proposed to change the dues, effective Jan. 1, 1981, as follows: Full Members, Associate Members, and Members-At-Large, $12.00 per year. New members (only) will have dues pro-rated at the rate of $1.00 per month for partial year membership. Additional Family Members living at the same address, $3.00 per year, not pro-rated. This proposal will be voted on by Full Members at the December meeting.

Some questions have risen regarding the reason for the increase. During the lengthy consideration of this subject, your Directors concluded the following:

a. Dues paid by Associate Members were insufficient to cover their prorated costs of the Bulletin and the Directory, let alone any other expenses.
b. If it were not for the profit made at Fresno and the 1 year prepayment of dues by many recent new members, we would have a negative bank balance.
c. It would be desireable to have some funds available to give club support to worthy DXpeditions or other activities, upon approval of the membership, rather than the present system of "passing the hat".
d. There has been no change in dues structure for many years even though our expenses have increased like everything else.
e. The proposed dues increase should not work a financial hardship on any active DXer.
f. Postage rates are expected to be increased next year.

P.S. Your Editor's secretary says that she paid similar dues to her neighborhood girls club when she was 7 years old!

1980 CQ WW DX CW Contest

Overheard on the air just minutes after the close of the CW portion of the CQ WW DX Contest this past weekend was a QSO between two contestants - 4N3P (YU) and NP4A. 4N3P had about 8K contacts with a multiplier of approx. 570 which should be a new record! NP4A claimed 11600 contacts with a 630 multiplier which may not be a new record but a great effort. 6Y5YL must have done well altho we have no numbers to quote.

The battle for single op-all band honors appears to be between 8P6J (Jim, N6TJ), 9Y4VT (Dick, N6AA) and Geo., LU8DQ. SCDXC was well represented with Jim and Dick just mentioned plus other active SCDXC calls W6AM, AA6AA, W6AQ, W6BA, KH6BZF, K6DDO, W6EE, W6EL, N6AR, N6TR, K6NA, WB6SHL, K6EWL, K6EVR, W6RR, W6GG, K6RR, N6RJ, N2YQ, W6PYV and others.

VE1AI/1 showed up from Sable Island for those of us who missed him last year thinking he was only a VE1 in zone 2 causing the pile up. He was very active on 80 and 40 so that was an extra for the 5BDXCC types.

130 FT. ANTENNA POLE FOR FREE

Henry Radio has offered their 130 ft. pole (90 ft. above ground), with rotator, free for the taking. The pole was installed around 1946. Don Wallace, W6AM, thinks it could be moved and set in a local area by most any crane company for about $500. It would then be worth about $3,000 based upon the costs of starting from scratch. Don dislikes to see a fine pole cut up. If you are interested, contact Henry Radio on Olympic Blvd. in West Los Angeles.

YASME Rides Again (Still)

Iris and Lloyd Colvin, W6QL and W6KG, continue to provide new opportunities for the DX fraternity, in wholesale quantities. After Crete operations from W6KG/SV9 with over 10,000 contacts they operated from Rhodes as W6QL/SV5, making 6,500 contacts in 133 countries, split about 50-50 between CW and SSb. True to their schedule they were on from Israel during the CQ WW DX CW Contest. For future operations see DX Calendar.

While on Rhodes, without planning it, Iris reports that she worked 4Z4DT, EA9IE, SP5XM, W2LU, VK2BVD and YV5HAT within 3 minutes on 14 mc SSB, which may be an all-time record for making WAC. This sure beats Lloyd's 1948 WAC record at that time for making WAC with ZS6OI, J1CC (JA), OK1XA, LU1BH, FK8AB and W6PYV in 32 minutes on 14 mc CW when he was J2AH1 in Japan as a major in the Signal Corps. Can you believe that W6PYV received a card from Lloyd asking to "PSE QSL"? Lloyd and Iris have so many cards now they literally had to reinforce their foundation to carry the weight!

New Members

If you know of any prospective members, either full (100 countries or 40 zones confirmed) or associate (25 countries confirmed), contact Membership Chairman Bob Kogen, W6DN for application forms, sample Bulletin, etc. Phone Bob at his new home phone nr 992-6350 or write him at his new QTH: 23217 Keswick St., Canoga Park 91304.

Two Explanations

1. Last month we unexpectedly, but happily, received a record number of Activity Reports. In order to fit these into the 4 pages available without going over the postage limit, it was necessary to edit out 60% of the stations reported from each contributor. This was really tough, and took far longer than typing them. We are sure our judgement was questioned in many cases - like editing out the UM8's in the rare oblinsks and leaving in the UM8 in the run-of-the-mill oblinsk. Sorry about that. We have a plan to handle the next deluge without such heavy editing, so try to swamp us!

2. In case you've been wondering how we select our Personal Profile member each month (we will miss occassionally, like this month, when material is late in arriving), after the initial key officers, we are working through the charter members. After that we plan to cover past presidents who are still active. We also have many younger, very active members who deserve recognition - so hang in there, we're working the pile down as fast as we can!

W1AW DX Bulletin Schedule

QSLs by W6BA

Printed in black ink on one side. A choice of color of card stock. $17.50/K. Printed by "offset press" so normally anything that can be photographed can be printed. Bill Adams, W6BA, Star Route 2, Box 241, 29 Palms, CA 92277.

Shortwave Propagation Handbook

Autographed copies of the Shortwave Propagation Handbook, by George Jacobs, W3ASK, and Ted Cohen, N4XX, can be obtained stateside for $7.50 postpaid from: MAIL-A-PROP, P.O. Box 1714, Silver Spring, MD 20902.

2 Meter DX Information Round Table

Don't forget to tune in each Thursday evening at 1930 on our SCDXC "family hour" conducted by Roy, N6TK. That's 7:30 PM PST, 0330Z, UCT, GMT.
